

Commercial & Residential >>>

Capitol Valley Electric is a leader in delivering transformative commercial and residential real estate projects around America, playing a critical role in developing diverse office environments, domestic dwellings, and dynamic retail destinations.

We play a critical role in the conceptualization and execution of these spaces and have been involved in some of the most iconic projects ever delivered; buildings that define the skyline of many of the most illustrious cities.

Mixed Use

Place and experience are merging in new ways to redefine innovative environments while the demand to live, work and play in a centralized location continues to increase in popularity. CVE is responding to this critical shift by partnering with clients to create environments that blend residential, commercial, cultural, and institutional elements into a physically and functionally integrated and connected place. These mixed-use developments create and enhance a sense of place while seamlessly integrating into the existing communities.

Office

Although the specific technical hurdles encountered on commercial projects vary greatly, CVE is well equipped to partner with our clients and shepherd these projects towards a successful completion. With a stellar reputation for tackling the world's most challenging commercial projects and numerous iconic developments in our portfolio, including some of the tallest and most recognizable buildings in the world, we help our clients develop and implement an optimal plan for the seamless execution of these projects.

Residential

With consumers across generations seeking live/work lifestyles in ever-growing numbers and global populations on the move, the sector is experiencing growth trends like never before. From high-rise apartment buildings to small scale or extensive residential developments and new communities, CVE's residential specialists deliver cost effective and sustainable projects to clients

Retail

CVE has proven, expertise across every type of retail project and program. Our success is based on our ability to collaborate and perform efficiently while adhering to highest level of quality and safety.

We provide a full range of services, which allows us to ensure seamless transition and coordination across the entire project life cycle for our retail clients, including planning, design, and construction—from small tenant fit-outs to major renovations, to new multi-story anchor stores and entire shopping malls.

Whether clients need help in the development of standardized design criteria, construction management support for a single project or program management services, CVE can tailor our services to meet their needs.
